

Bill 259 PH 3/12/14

Dear Senate Committee,

After dealing with the breakup of people, Connecticut Families, and the increase in crime due to illegal drugs, I have to ask myself, how could anyone in their right mind make it easier for criminals?

There is no way that this bill makes sense to me. You folks need to talk to people whose lives drugs have ruined. You need to talk to doctors on how drugs at an early age affect young minds PERMANENTLY.

Forget the nonsense that people may want, or politicians who want everyone to be on State support at some point in their lives. Talk to experts and counselors in the field that have dealt with real people.

Drug habits that start early, tend to keep the maturity level of the individual at that level for the rest of their lives. LET US NOT MAKE IT EASIER TO GET AT YOUNG LIVES IN SCHOOLS.

I honestly question anyone who would support such a bill. They are certainly out of touch with their average constituent. Anyone politician for this bill that has ever been on drugs, in my opinion should recluse themselves. The issue is that serious to me and the many families and dreams of Connecticut residents damaged by drugs.

I predict that even Colorado will soon see the affects of opening up the drug market. California has.

PS: Matthew 7:9-11 Or what man is there of you, whom if his son ask bread, will he give him a stone? Or if he ask a fish, will he give him a serpent? If ye then, being evil, know how to give good gifts unto your children, how much more shall your Father which is in heaven give good things to them that ask him?
